To Whom It May Concern,

This letter is to confirm that Movember is aware of and fully supports Jason Cronen's 2025 fundraising initiative the 'Lycian Way Challenge' – in support of Movember.

In February 2025, Jason will undertake an extraordinary 540-kilometre trek along the Lycian Way in southern Türkiye, as part of Movember's *Mo Your Own Way* campaign. Having bravely battled cancer twice, Jason is channelling his experience and recovery into raising funds and awareness for men's health and cancer research.

At Movember, we're fortunate to have supporters like Jason who go above and beyond to create unique, purpose-driven initiatives. Undertakings like this require immense personal commitment and the support of generous individuals, community networks, and corporate partners. We encourage anyone who can to get behind Jason and support his incredible effort to change the face of men's health.

Funds raised by the Movember community, globally and regionally, are invested in programs that directly support prostate cancer, testicular cancer, mental health, and suicide prevention. Key global initiatives include:

TrueNTH Global Registry: Operating in 13 countries, benchmarking real-world prostate cancer treatments to improve outcomes.

Global Cancer Real-World Evidence Network: Connecting 19 countries and up to 500,000 men to accelerate prostate and testicular cancer research.

Digital Mental Health Tools: Expanding programs like [Mo Conversations](#) to help people navigate important mental health discussions.

If you have any questions or require further confirmation, please don't hesitate to contact me using the details below.

Yours sincerely,

Alex King
Senior Fundraising Manager
